Running a club is harder than it should be

Most clubs juggle scattered tools, spreadsheets and manual work. Here is what we kept hearing from presidents and boards:

- ✗ Presidents and boards lack real-time visibility into club operations.
- ✗ No public 'Donate' button for supporters to give online.
- ✗ Your member system is a separate website, disconnected from club operations.
- ✗ Securing and managing sponsors is clunky and manual.
- ✗ Collecting and tracking membership dues is a manual chore.
- ✗ Meeting reminders go out by hand, every single time.
- ✗ Your club has no public website of its own.
- ✗ Speaker scheduling and history aren't tracked anywhere.
- ✗ No simple way to run fundraisers or service projects.
- ✗ Donations to non-profits are tracked by hand in spreadsheets.
- ✗ No easy way to recruit, schedule or advertise for volunteers.

Good news: ClubGuru fixes every one of these.
